

# Pneumatic Plier

## Model JK35T590

Staple JK590

The new and highly efficient model JK35T590 wide crown plier tool features a fixed tongue which is ideal for high frequency stapling. It is the perfect tool for sealing corrugated furniture wrap used for sofas and other large pieces of furniture.

The unique combination of heavy duty plier and a wide crown staple offers you new solutions to many hard to solve problems, for example putting lodes to the ends of coarse hard board tubes.

The JK35T features less moving parts for greater durability. The tool can easily be adjusted for different applications by a set of inserts. This set of inserts is delivered with the tool as standard.

The JK35T590 staples up to a maximum of two layers of triple wall corrugated fibreboard. The plier uses the JK590 type staple in leg lengths from 19 to 32 mm.

For easier service and maintenance of this tool, sets of spares are available, containing parts that are most subject to wear.

### Technical data

Length	335 mm (13.2")
Width	65 mm (2.6")
Height	220 mm (8.7")
Weight	2.6 kg (5.7 lbs)
