PARTNERS WITH
AFFLUNK

For over sixty years,

we have been providing our customers with quality products, knowledgeable sales and superior technical support.

As Michigan's leading distributor of marking and coding equipment, we offer the highest quality products and the most competitive prices in a wide range of technologies.

Case Coders
Dot Peen Systems
Ink Jet Printers
Labeling Equipment
Lasers
Stenciling Equipment
and more....

Our wide variety of marking & coding equipment...

Small Character Ink Jet Printers

Hitachi printers are simply the most reliable continuous ink jet printers on the market. In addition, they are priced significantly lower than any major competitor.

Lasers

MarkPack carries a full line of low-maintenance, competitively priced lasers for marking on a wide variety of products in both stationary and on-the-fly applications.

High Resolution Case Coders

Foxjet features case coding equipment that is incredibly rugged and robust. No other technology provides higher uptime or a lower cost per code.

HP®-Based Case Coders

Inc. Jet offers the only ink jet equipment backed up by a lifetime warranty. Their thermal ink jet equipment utilizes HP® ink jet cartridge technology for clean operation and crisp print.

Label Applicators

Foxjet offers one of the most complete lines of label applicators. From low-cost to high-performance machines, Foxjet has a model to meet your needs and budget.

Label Printer Applicators

Foxjet has revolutionized the print & apply industry. Their innovative machines eliminate the need for plant air and offer unmatched reliability at a competitive price point.

Label Printers, Dispensers & Rewinders

MarkPack carries a full line of products for lower-volume labeling applications. From thermal transfer printers to electric dispensers to handheld applicators, we have it all.

TTO Printers/Hot Stamp Coders

OpenDate offers unparalleled performance with their wide range of thermal transfer overprinters and hot stamp coders. Large print area and high speed models are available.

Dot Peen Systems

SIC Marking's dot peen systems are incredibly unique. Their handheld and column mount systems are ALL electric, and their rack and pinion design eliminates drive belts for fewer wear parts.

Electrochemical Etching Machines

Our LECTROETCH electrochemical marking machines provide a simple and economical method of marking static information on metal parts.

Contact Marking Machines

Sprinter Marking manufactures reciprocating coders for marking inspection dots and static text on metals, plastics and other substrates. They are reasonably priced, simple and require little maintenance.

Stenciling Equipment

MarkPack offers computerized and manual stencil machines from Marsh and Diagraph, the two most respected names in the industry, as well as inks, sprays, brushes, rollers and stencil board.
